

MCCT 2026 Participation Record

Name	Jooyeol Kim
Role	Independent Researcher
Event	Midlands Conference in Critical Thought 2026
Venue	University of Warwick, Coventry, UK
Dates	21-22 May 2026
Record prepared	2026-05-25 KST

1. Managed Dissipation

Title: Managed Dissipation: Internalised Exit and Non-Eventful Collapse in Contemporary Societies

Status: Presented / completed

Format: Remote participation | **Session:** MCCT 2026 Stream 11 | **Date:** 22 May 2026

Public summary: This presentation asked what happens when accumulated social pressure has no clear route back into exit, voice, or correction. It developed the idea of managed dissipation as the patterned rerouting of unresolved pressure into refusal, withdrawal, internalised exit, and non-eventful collapse.

2. Managed Hegemony

Title: Managed Hegemony: Why Resistance Fails to Consolidate under Conditions of Collapsing Realizability

Status: Accepted and programme-listed presentation

Format: Remote participation attempt | **Session:** MCCT 2026 Stream 6 | **Date:** 21 May 2026

Status note: The remote presentation attempt for this item was disrupted by IT/device problems. Materials were prepared. This item should be described conservatively as accepted and programme-listed, not as a clean completed presentation unless later conference records or organizer confirmation support a stronger status.

Use of this record

This file is a public participation and accepted-work record. It is not a full paper, full slide archive, complete presentation transcript, or full research-method disclosure.
